

The image shows a screenshot of a web interface titled "GAF - Map Overlays". At the top right is a "Close" button. Below the title, there are two dropdown menus: "Icing index" and "Choose Met Static Service...". A "World map overlay" checkbox is checked. Below these is a time bar with markers for +0h, +6h, +12h, +18h, +24h, and +30h. The current time is displayed as "Thu, 20 Jun 2024 06:00:00 GMT/UTC". At the bottom, there are playback controls: a play button, a fast forward button (two right arrows), and a fast rewind button (two left arrows). A small time bar below the controls is set to 6s. The Google logo is visible in the bottom left corner.

Choose type of layer

You may choose world map overlay

Time bar set in hrs from the start time below

Start animation

Note the time bar for this layer

Fast forward or rewind by 1 or 6 hrs

Automatic refresh is default every 6 seconds
